PROFESSIONAL SUMMARY

A highly proficiet and results-driven **Software Engineer** with strong focus on **Frontend Development** and hands-on experience in React, Next.js, and Redux, REST API integration , developing responsive user interfaces and managing complex state logic for real-time applications, the optimisation of user experience (UX) and user interface (UI) designs, and the collaboration with cross-functional teams to deliver impactful software solutions. A proven aptitude for translating design concepts into pixel-perfect, scalable, and accessible web applications has been consistently observed. Ready to leverage proven collaboration, problem-solving, and technical strengths to drive high-performance outcomes.

TECHNICAL PROFICIENCIES

- **Frontend Development:** React, NextJS, HTML5, CSS3, JavaScript, TypeScript, Redux, State Management, UI/UX Principles, Responsive Design, REST APIs Integration.
- **Programming Languages:** JavaScript, TypeScript.
- **Leadership & Communication:** Team Leadership, Technical Mentoring, Cross-functional Collaboration, Technical Documentation, Agile Methodologies.
- Google Workspace tools

EXPERIENCE

Darkel Microsystems Limited | Lagos,Front-End Developer *(Dec/2025)- present*

- Building and maintaining a high-traffic **web-based exchange** platform handling millions of transactions per quarter.
- Designed and implemented scalable date-range filtering for trade history, improving performance and data visibility for large transaction volumes.
- Led frontend enhancements and bug resolution across critical user flows to improve reliability, responsiveness, and user experience.

- Integrated and consumed backend APIs to support real-time trading data and ensure consistent system behaviour.

Cartinary Global | Lagos, Front-End Developer (Remote) (aug/2024)-present

- Developed React dashboards with CRUD functionality, integrating **RESTful APIs** and advanced state management using Redux.
- Built real-time chat support features and implemented secure authentication workflows for enhanced user experience.
- Created interactive data visualization dashboards featuring charts, filters, and dynamic, real-time metrics.
- Engineered bank verification forms with robust validation and responsive user feedback to improve usability.
- Collaborated with cross-functional teams to optimize UI performance and ensure responsiveness across devices.

EDUCATION AND CERTIFICATIONS

Ambrose Ali University, Edo • Second Class Upper Division Graduation Year (2024)

Bachelor of Engineering in ***Mechanical Engineering*** with a Second-Class Upper Division (2.1). Achieved an impressive CGPA of 4.318.

Relevant coursework: Engineering Mathematics, Control Systems, Systems Design.

Certifications

- ALX-T Full Stack Developer | Udacity, 2022
- React - The Complete Guide (incl. Hooks, React Router, Redux) | Udemy, 2022
- Reponsive Web Design | FreeCodeCamp, 2022
- ALX VA | Alx, 2024
